Making Medicare make sense

Questions about Medicare?

TO FIND THE MEDICARE PREMIUM, call:
1-800-633-4227 or visit www.medicare.gov.

The Medicare Part A deductible covers benefici-
saries for the first 60 days of Medicare-covered
inpatient hospital stays in a covered hospital.
Inpatient hospital stays beyond that period
are covered at a lower rate. Most Medicare
beneficiaries will pay an additional $320 for
days 61 through 90 in 2014. Beneficiaries do not
pay anything for the first 20 days of
nursing facility care. The daily co-
pay for days 21 through 100
is $140 per day for hospital
stays beyond the initial period.

Medicare pays the
First 20 Days

Cardiovascular Imaging Program Receives Accreditation

A joint venture between the Department of Radiology and the School of Allied Health Programs, this program is one of only eight programs in the nation and the only one in South Carolina.

Thornwell 4K highlighted by First Steps

There will be special guests and a "4K for Life" drawing for free services.

Cardiovascular Imaging Program Receives Accreditation

Clemson University’s Cardiovascular Imaging Leadership program, offered in partnership with GHS, has been approved for initial accreditation by the Commission on Accreditation of Allied Health Programs. This program is one of only eight in the nation and unique in that it offers a dual degree in healthcare and technology training simultaneously and because students who take part in the program have a strong public health science undergraduate background. To learn more, please visit www.physci.clemson.edu.

Pediatric After-hours Care Opens

GHS Children’s Hospital After-hours Care provides sick care to all children ages 0-18 in the Upstate. More than 30 teachers and assistant teachers attended to learn more about the required 4K curriculum. Martha Robinette was asked to give her expertise of the 4K assessment program to the board because of the high quality of the program’s curricula and staff, and positive impact on the community.

Thornwell 4K, staff provided, alongside Brookland Academy Child Development Center, and the Georgetown County Housing Authority. Also serving inmates in Columbia were S.C. Senate Mike Fair, S.C. Representative Richie Allison, and executives from Aupha, the state’s new family/school readiness assessment company.

Thornwell staff had the opportunity to share their story of the creation and implementation of the program in our community, and Brooke Robinette was asked to give her expertise of the new assessment that South Carolina’s families receive.
