

# Compassionate, state-of-the-art cancer care close to home.

A cancer diagnosis is a life-changing event for patients and their loved ones. On top of stress and fear, there can be an overwhelming amount of information, tests and appointments to keep track of throughout the course of cancer treatment. CHWC is proud to provide a well-rounded multidisciplinary approach to cancer care, with a wide range of services available close to home.

Our cancer care team includes medical and radiation oncologists, oncology-certified nurses, therapists, patient navigators, social workers, dietitians, speech therapists and many others, all focused on providing the best care to each and every patient.

October is  
**BREAST  
CANCER**  
Awareness  
Month
