Polk county Democrats met in convention at Crookston yesterday, endorsed Oppgaard and Cummings for representatives, named John Driscoll for commissioner of the 5th district, and left the balance of the county ticket blank. In fact, about all the work done by the convention was that of the committee on resolutions which drafted a lengthy list of a dozen resolves that of course scored the present national administration and lauded the state government under the present mismanagement.

Thos. Butler, one of the pioneer lumbermen on the Clearwater, dropped in for a social chat with us on Monday. When asked how Bryan stood with the lumber boys this year, he replied: "For the past 28 years I have voted the Democratic ticket straight, shouted and worked for the success of the party, but I am through and so are all the lumber jacks who have had to make their living working in the woods and on the drive. We will vote and work for a continuation of the wages we are receiving today. McKinley and prosperity are good enough for us."

Life lies in the blood. Strength lies in the iron of the blood. Disease consumes the iron, all fever burns and destroys it. The Urine becomes red or brown from iron which has been deoxidized and secreted from the body through sickness and disease. Human life is frail and weak and is in a constant turmoil and struggle to supply the daily loss of iron. Weakness and paleness stand as witnesses that the human body is starving for nature's remedy, iron. 50 doses of H. W. Barker's Iron Compound will supply all the iron needed for three pounds of blood. It is the best remedy known to medical science and recommended by physicians.—P. M. Mark.

Millions will be spent in politics this year. We can't keep the campaign going without money any more than we can keep the body vigorous without food. Dyspeptics used to starve themselves.
