Last Saturday night, at the Bryan, Lind and Daly Club headquarters, Messrs. Malm, Hagen and Hendricks addressed a meeting of the faithful. Mr. Malm confined himself to an interesting educational talk that contained much substance, and left politics out of his discourse. Erick Hagen then delivered an oratorical effort along the usual line of the democratic speeches of the day. His delivery was all right but his subjects were weak, as are nearly all the grounds for argument in the platform which he supports. Attorney Hendricks wound up the meeting with a fiery little "biff" at Senator Ryder and the speech delivered by him here last week. The gathering was chiefly notable for the small attendance of fusion voters.

Liberty is the great Republican doctrine for which the people went to war, and for which a million lives were offered and billions of dollars were expended to make it a lawful legacy of all without the consent of master or slave. There is a strain of ill-concealed hypocrisy in the anxiety to extend the constitutional guarantees to the people of the Philippines, while their nullification is openly advocated at home. Our opponents may disgust themselves, but they have no right to discredit the good faith and patriotism of the majority of the people, who are opposing them.—William McKinley's Acceptance Speech.
