

Barren County Homemakers celebrate

Members of the Barren County Homemakers continue to celebrate 75 years of their organization in the local community. The first clubs organized in 1938 and over the years 52 different clubs have aided women in creating and maintaining positive homes and healthy families. Today, 240 women are members of 14 active clubs.

The Barren County Homemakers have consistently supported the local community through many worthwhile efforts. These members were captured at the annual Glasgow Tobacco Festival in the 1950's.
