

Cut your own Christmas Tree

Start a family tradition at All Pine Christmas Tree Farm

By Van Mitchell
Staff Writer

The holiday season is approaching and that means that people are starting to think about Christmas trees.

And those looking for a natural tree this year have several options including All Pine Christmas Tree Farm located at 2205 South Mustang Road in Yukon.

All Pine Christmas Tree Farm offers choose-and-cut Virginia pine trees, as well as fresh pre-cut Noble, Fraser and Nordman Fir. Visitors can also stock up on evergreen wreaths while the staff at All Pine Products drill, shake, wrap, load and tie the tree. Coloring books and candy canes are also available.

"We have been growing trees since the early 1980s," said Jean Collins-Holvaway with All Pine Products. "We have a large supply of 10-foot trees. We shake, drill, wrap, load and tie the trees to your vehicle. Coloring books and candy canes are also available for the kids."

All Pine Products opens the Friday after Thanksgiving at 10 a.m. and will be open 3 p.m. until 6

p.m. Monday through Friday and 10 a.m. to 6 p.m. on Saturday and Sunday.

"This year every weekend up until Thanksgiving we are letting people come out and pre-tag their trees and

come back later to cut it down," she said.

Collins-Holvaway said the tree farm receives new and regular customers each year. She said there is something special about getting to

pick out your own Christmas tree.

"It is a tradition and it is a great experience," she said. "Families like to come out to the tree fields and selecting the tree that is for them. The

artificial tree just isn't the same as having a tree that you selected and cut down yourself."
