

# BE MOSQUITO FREE! PREVENTION & PROTECTION

## DRAIN

Remove standing water from around your home. It only takes a bottle cap's worth of standing water to cause a mosquito problem.

Common culprits that should be monitored regularly for standing water include

- clogged rain gutters,
- corrugated drain pipes,
- bird baths,
- pet bowls,
- trash & recycling bins,
- plant pots, and
- children's toys.

## DRESS

When practical, wear long pants and long sleeves. Loose-fitting, light-colored clothing is best.

Studies have shown that some mosquitoes are more attracted to dark clothing and can most readily bite through tight-fitting, loose-weave clothing.

## DEFEND

Use repellent! The EPA has registered repellents that have been reviewed and approved to pose minimal risk when used properly:

- DEET (N, N-diethyl-m-toluamide)
- Picaridin (KBR 3023)
- Oil of lemon eucalyptus (p-methan 3,8-diol, or PMD)

## MOSQUITO CONTROL

When performed properly by trained professionals, back yard mosquito treatments can help to reduce the danger and risk posed by disease-carrying mosquitoes.

The Mosquito Authority's REPEL+PLUS Mosquito Treatment will break the mosquito lifecycle and all but eliminate mosquitoes from your yard - and your life - all summer long.

# CHS senior wins affiliate award for Aspirations in Computing

Special to The Clinton Courier

Clinton High School senior Charmaine Beluso received an award and scholarship for Aspirations in Computing.

The award, sponsored by the National Center for Women and Information Technology, recognizes high school women for their computing-related achievements and interests as part of an effort to encourage more young women to choose careers in technology.

The regional affiliate is Mississippi State University, and Beluso received a scholarship of \$500 and a housing scholarship for the fall semester worth \$3,050. As part of the award, she will attend the Summer Bridge Program and will enroll in computer engineering, software engineering and computer science.

Beluso is the daughter of Teresa and Maxwell Beluso.

The NCWIT is a non-profit community of more than 850 universities, companies, non-profits and government organizations nationwide working to increase women's participation in computing and
