## Clinton Tinnin Road bridge work hits snag

By Hinds County District 2  
Supervisor Darrel McQuirter

The County has not been able to work out acceptable terms with four of the ten landowners with adjacent properties located next to the two Tinnin Road bridges. By law, governmental agencies cannot purchase any property in excess of its ap-

praised value. I have already authorized our legal department to move forward with filing eminent domain procedures.

The Judge signed and filed the fiats on Friday, October 13, 2017. Once the parties are served with the eminent domain lawsuits for thirty days, the Judge can then appoint a new appraiser to appraise the properties.

The appraiser then has ten days to submit his report to the Judge. Once the court-appointed appraiser files his report, the County will then ask the Court to sign an order granting the County immediate title and possession to the properties, contingent on the County depositing eighty-five percent of the appraised value with the clerk of the court.

Additionally, road resurfacing has been completed on Carsley Road. Final debris removal and road striping will follow. Funding for Ratliff, Jimmy Williams and numerous other shorter roads in the North Hinds areas should be in place by November 30. However, weather conditions and temperatures will dictate the paving schedule during the winter months.
