

Hospital District #1 of Rice County is a family of professionals dedicated to serving our communities' health care needs with dignity and respect

- Hospital Medical Staff -

After sustaining a head injury in an accident at age 14, I was inspired by my physician. I wanted to be a small-town doctor and serve the needs of a close-knit community. After a taste of big-city life and running a major trauma service, I was asked to do surgery in Lyons. I really love my surgery staff at Rice County District Hospital; they are the best I have ever worked with. I truly enjoy serving the people of Rice County.

- Dr. Randall Beech

“Every gift, no matter how large or small, helps the Foundation achieve our mission to improve health and inspire philanthropy in our community.”

– Dan Shanalec RCHF President

Rice Community Healthcare Foundation

The Rice Community Healthcare Foundation is a not-for-profit organization that works collaboratively to ensure patients and families have access to compassionate healthcare and community wellness programs, with a mission to improve health and inspire philanthropy in Rice County.

The Foundation was established in 1990 as the philanthropic affiliate of Rice County District Hospital. Operations and oversight is provided by a Board of Directors who represents the communities of Rice County.

There are many ways you can help advance the cause of a healthier community. To learn more, contact the Rice Community Healthcare Foundation at 620-257-5173.
