

Started out as The Barkley Co. in 1964 by Bill Barkley doing commercial construction such as water lines, sewer lines, sewerage treatment facilities and such. In the 1970's our interest shifted to grain bins and grain elevator construction. Britt Barkley bought into the company in 1978. In the 1980's we changed our interest again to more primarily residential construction. In 1991 Bill Barkley retired and Britt continued on doing residential and light commercial work and is still going having changed the name to Barkley Construction LLC. We have been very blessed to have some great customers in the Union City area over the many years and are very appreciative for them all. Here is all the great men that make all this possible.
