

Best Clinic: BMG Women's Health Center

Best Doctor: Dr. Elizabeth Lund, MD, Best Nurse: Diane Bryant

BMG Women's Health Center of Martin, formerly known as Surgical Associates, offers a variety of healthcare options for both women and men. The staff specializes in obstetrics and gynecology with board-certified physician and this year's Reader's Choice Best Doctor Dr. Elizabeth Lund, who leads the team at BMG Women's Health Center and has been practicing medicine in Martin for more than 20 years.

Dr. Lund grew up in Martin and knew from a young age that she wanted to come back to Weakley County to practice medicine. She has brought hundreds of babies into the world in Northwest Tennessee and helped ensure their healthy development while taking care of the expectant mothers. But

her patient list doesn't just include expectant mothers and their newborn babies. Dr. Lund handles all ranges of gynecological needs for her patients.

The extended staff includes another physician, two family nurse practitioners, and two certified nurse midwives – all of whom love seeing a wide range of healthcare issues in the adolescent population to the more seasoned patient.

"We try to take the time to make sure each woman, and occasionally, each man, feels like their healthcare needs are addressed at each appointment. Whether it's bringing your new baby into your family or your own health needs, we strive to apply our team's medical knowledge to make sure

you achieve the best well-being possible."

Their attentive care has earned the team top honors in The Press' Reader's Choice awards. The healthcare center was chosen as the Best Clinic in Weakley County. Dr. Lund earned the title of Best Doctor. And nurse Diane Bryant has been chosen as the Best Nurse in the Reader's Choice awards.

"At BMG Women's Health Center, we have a wonderful office staff, nurses, lab technicians, mid-level providers, and physicians, all working together as a TEAM to work for our patients to bring the best knowledge and care we would want for our own families. We wanted to thank those who voted BMG Women's Health

Center (formerly Surgical Associates) and choosing us this year. We love serving this community, and we hope to continue to provide quality healthcare in Weakley County."

Surgical Associates of Martin opened in August 2005. It merged with the Baptist Medical Group in July of this year to become BMG Women's Health Center of Martin. It is located at 300 W. Peach St. in Martin.

The clinic is open Monday through Friday from 8 a.m. until 5 p.m. For more information about this award-winning medical facility, call (731) 587-2525, or go by and congratulate the team on earning the title of Best Clinic in Weakley County.
