

A DAY AT THE PARK

Continued from 1A

Research shows that protective factors are present in healthy families. Promoting these factors is among the most effective ways to reduce the risk of child abuse and neglect. They are:

- Nurturing and attachment
- Knowledge of parenting and of child and youth development
- Parental resilience
- Social connections
- Concrete supports for parents
- Social and emotional competence of children

"April is a time to celebrate the important role that communities play in protecting children and

strengthening families," said Norene Puckett DPC Community Outreach Liaison. "Everyone's participation is critical. Focusing on ways to connect with families is the best thing our community can do to strengthen families and prevent child abuse and neglect."

In support of these efforts, the U.S. Department of Health and Human Services' Children's Bureau, Office on Child Abuse and Neglect, its Child Welfare Information Gateway, the FRIENDS National Center for Community-Based Child Abuse Prevention and over 30 National Prevention Partners have created 2018 Prevention Resource Guide:

Keeping Children Safe and Families Strong in Supportive Communities. The resource guide, designed for service providers who work throughout the community to strengthen families, is available online at https://childwelfare.gov/topics/preventing/preventionmonth/?utm_source=Gateway&utm_medium=website&utm_campaign=NCAPM18.

For more information about child abuse prevention programs and activities during the month of April and throughout the year, contact Lisa Cripps DPC Coordinator 615-580-9290 or www.facebook.com/dekalbprevention-coalition.

TIM STRIBLING

CANDIDATE FORUM

ty mayoral candidates, current county commissioner and mayoral hopeful Bradley Hendrix said he is concerned about the shape of DeKalb County schools and the low pay of county employees.

"We do need a new elementary school, big time," Hendrix told the audience,

noting he is for a wheel tax if that would help DeKalb County schools catch up to surrounding systems. "I am for a wheel tax but that should be through a referendum."

Hendrix said the athletic facilities here are in need of upgrading and that he would like to see a sports facility all based on one campus.

Mike Foster, who served multiple terms as county mayor before being defeated by Mayor Tim Stribling last election, pointed to the successes he had as mayor.

"We upgraded pretty much everything," Foster pointed out, touting great successes when it came to improvements of bridges and roads. "You think the roads are bad now, you should have seen them years ago."

Foster added that during his administration the county debt went down and the bond rating improved to A+. He also noted

that he enacted the process whereby county commissioners are educated on the items they are voting for before they show up to vote for measures in general assembly.

Stribling noted that DeKalb has one of the lowest tax rates in the state yet has a \$4 million fund balance.

"We have good commerce and a good tax rate," he said, noting the county has taken advantage of numerous grants during his term. "It's been a very fast four years."

Stribling said the school building program will be high on the agenda during the next four years as will keep county salaries competitive.

"I think we are on the right track," Stribling said of county salaries.
