Wes Williams seeking Register of Deeds job

WILLIAMS

Warren County has always been home for Wes Williams. You may have seen from the increasing amount of yard signs bearing his name, Williams is running as a Democrat in the upcoming May primary with the goal of being elected as Warren County's next Register of Deeds.

Williams grew up in the Morrison community and is a Warren County High School graduate. He continued his education after high school by earning his associate's degree from Motlow State Community College here in McMinnville before going on to earn his bachelor's degree in business from MTSU.

Wes Williams calls Warren County home, along with his wife, Kirby, and 2 children, Connor and Kate.

Williams has continuously worked in Warren County's local government for the past 11 years. He has served in the Warren County Trustee's office for seven years as a deputy trustee and he currently serves our community as a field appraiser in the Warren County Property Assessor's office,

where he has worked for the last four

Williams said, "I'm extremely experienced in numerous aspects of local government and its various departments. When the information is recorded in the Register of Deeds office, it is sent to the Assessor's office and ultimately to the Trustee's office."

Williams says his knowledge of how all three of these offices operate, paired with his extensive real estate experience, is what gives him a unique advantage in seeking the position of Register of Deeds. Williams said, "I am most the qualified candidate for this job and I have the drive and vision to serve the people of Warren County."

Not only has Wes served Warren County in a professional level, he is a dedicated community servant. He currently serves as the Morrison Ruritan president, has coached many youth baseball and basketball teams, served as auctioneer for many local benefits and has supported our local schools.

"Public service is something I am passionate about and I feel very fortunate to been able to play a small role in helping others and our community," he

Williams is running on the platform he can implement change in the Register of Deeds office that he says is sorely

needed. "This is 2018 and businesses change over time," Williams saiď, "Warren County needs to continue to adapt for the needs of our future."

According to Williams, the Register's office needs an efficient E-Recording system which he says will reduce the time from when a deed is recorded to when it is returned to the customer. Another addition Williams will seek to

include is an effective website that allows citizens to view their deed anytime from anywhere.

"My mission, if elected as your Register of Deeds, is to serve the public interest of Warren County by providing accurate, timely, accessible, and secure management of the county's most important records."

Williams says people rely on these records to protect their property rights and to prove the occurrence of important life events. Williams says new ideas and progressive technology are both necessary in order for Warren County to move forward.

"I want to serve you as the next Warren County Register of Deeds which is why I am asking for your vote on in the Democratic Primary May 1," said
