

As a nurseryman and native of Warren County, I have always been amazed by its beauty. I want to bring out the best in our county for everyone to see.

I HAVE A PLAN to increase tourism, invest in our children's education & skills training and enhance the natural beauty of Warren County that won't cost hard-working taxpayers like you. With my resources and knowledge we already have it, it IS possible!

I want to be your County Executive because I believe Warren County is the **BEST** place in the world.

I am asking for your vote on **August 2nd**.
