At the bar, the thief unplugged all the security cameras. However, those efforts failed to conceal his identity.

"I can tell you we have identified a suspect," said Warren County Sheriff Jackie Matheny. "We're looking for him as we speak. He's lying low. Everywhere we thought he would be, he hasn't been."

Law enforcement caught up to Kirby at Martin's Chapel Church on Starlight Road. Kirby reportedly broke into the church July 26 in the morning and then returned later that same night, which investigators were expecting.

"When the investigators arrived, they found Corey Kirby inside the church and took Kirby into custody without incident," said investigator Travis Thaxton in his arrest warrant. "An eyeglass container was found near the window where Kirby entered and excited the building that contained four used syringes and a plastic bag that contained a crystal-like substance that field tested positive for methamphetamine."

Kirby reportedly stole a TV, two DVD players, blankets, and canned food from the church.

Kirby is also accused of burglarizing Midway Country Café on July 26, then walking across the road and burglarizing Midway CIC.

On July 19, he is charged with burglarizing a garage/ storage building at a home on Pine Bluff Road.

Summer vacation is almost in the books with another school year about to begin Wednesday.

Starting a new school year can be exciting while also nerve racking, especially for parents. Before you rush to buy a list of school supplies, take a look at these local teacher-approved tips that can really make a difference the first month back.

The most frequently mentioned back-to-school tip is to ease back into the bedtime and morning routine a few days in advance.

"As a parent of young children, one

almost a teenager, and being a first-grade teacher, establishing the bedtime and morning routine about a week before school really helps," said Dibrell teacher Jessica Page. "My own kids are always exhausted at the beginning of school, but reestablishing an earlier bedtime helps them."

West Elementary fourth-grade teacher Meagan Welch agreed while adding, "Teachers work very hard the first week/month of school setting schedules and routines for everything within the school building, but it is equally as important for them to be in place at home. Children thrive from consistency and succeed much better."

for VBS, we are going to have a slime machine and puppets Momma Green and Papa Green are going to ask questions from the lessons for the kids to get the slime."

Added Teresa, "The children love Deputy because he's more of the clown, but he makes it fun because he tells jokes.

We want to instill Bible-based teachings in these children."
