

Vikings

from page 4

The Vikes have outscored the Yellow Jackets in the past and always provide them a tough opponent.

October 5 brings the Vikings back home to Barker Memorial Stadium as they face the Gleason Bulldogs. The Bulldogs, who ended last season 2-9, should be an easy regional match-up for the Vikings. Homecoming will take

place this night as well and Viking pride will be at an all time high. You can expect the stands to be full and the energy to be even higher. Coach Ballard emphasized his excitement for everyone in the community to be involved this season.

"The energy is going to be intense. It's something you definitely don't want to miss," Ballard stated.

October 12, the Vikings will hit the

road once again traveling to South Fulton to face the Red Devils. The Vikings fell to the Red Devils in last year's regional matchup, however with new Viking leadership and more seasoned players, the Red Devils should be an exciting match up for the Vikings.

The Vikings last home game will be October 19 against the South Side Hawks. The class 4A competitors

will be another tough matchup for the Vikings. Last year they took the win over the Vikings 53-6. They are an offensively strong team so if the Vikings' defense can put a stop to Hawks' offense and hold them, the Vikings could soar right past the Hawks and steal the win.

The last regular season game for the Vikings on October 26 will take place in Dresden, facing the region's past No. 1 team in the Lions. Dresden has been a strong scoring team the past few years so once again the Vikings' defense will be put to the test. If the Vikings can step up and keep the Lions' offense in check, and the Vikings offense makes strong plays, then there is no doubt that the Vikes could tame the Lions and take over the region.

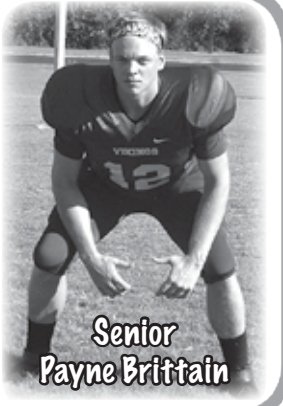

This season is bound to be a thrilling one that the fans surely don't want to miss. All games begin at 7 p.m. Come on out, be loud, be proud, and cheer your Vikings on to a successful season.
