

Goldthwaite Schools

By Ronny Wright
GCISD Superintendent

A Community Facilities Planning Committee was organized by the GCISD School Board in order to evaluate the existing high school facilities. This committee has been working for almost two years to gather information, opinions and ideas for the best solution to the needs of our current high school facilities. They have worked unimpeded and tirelessly towards this goal.

They have successfully completed their mission and have unanimously made a recommendation for a \$15.5 million bond for the high school facilities. The GCISD School Board also unanimously supported this recommendation and has called for a bond election in May 2017. The community owes this committee an big Thank You for a job done thoroughly and soundly. We are tremendously excited for our community and certainly for our students and staff at GCISD.

The committee held each of these entities as their main focus as they proceeded with this exhaustive study. This type of teamwork and dedication has led to an undaunted recommendation by the committee and is a prime example of what makes GCISD the envy of a good many of schools in our state and the school of choice for many of our parents and teachers. These are the type of decisions that make our community thrive.

If you see one of these committee members out in the community please feel free to ask them your questions but please also thank them for their dedication to our community and school system. Committee members: Bobby Rountree, David Schwartz, Mike McMahan, Angie Hermesmyer, Cindy Wesson, Cody Graves, Tom Guthrie, and Darrell Hunt.
