True 'Specialists'

Having highly qualified teachers and administrators is the goal of every school district in the state. For the Greene County School District, that goal is becoming a reality, as for the first time in history, the district now has more educators with advanced degrees and certifications than ones with Bachelor degrees. Once again this year, the district has members of the staff earning advanced degrees. Shown here are Leakesville Jr. High School Principal Monica Edwards (left) and Leakesville Elementary School Principal Shalonda Hollingsworth. The two school leaders were unable to attend graduation at GCHS on Friday as they were in Hattiesburg being awarded with their Specialist in Educational Leadership degrees from William Carey University. At least one other county educator earned an advanced degree this year as GCHS staff member Katie Moore (not pictured) earned a second Master's Degree.
