

Spring beauty

The vibrant colors of spring make this season often associated with rebirth an ideal time for amateur and professional photographers to ply their trades. Various colors, including pink, blue, yellow, purple, and, of course, green are on display each spring, providing wonderful backdrops for nature photographers. Wedding photographers also may enjoy shooting happy couples in spring, when the colors of nature can provide a perfect and colorful complement to men and women during their engagement or wedding photoshoots. In fact, spring flowers have inspired artists from various mediums. Among the more notable painters to paint springtime flowers and landscapes were Georgia O'Keefe, Impressionist pioneer Claude Monet and Vincent Van Gogh.
