The Browns – This family is happiest when busy schedules allow for a few moments of time together! Here, this modern family poses in front of the antique brick of their historic Ferdinand home.

Prettily placed – The Brown's home, framed beautifully by the gazebo on the north lawn of St. Ferdinand Church, sits attractively amid the town's rolling landscape. The home is replete with entrances, some of which are now simply decorous and most of which were added during the home's tenure as rental property.
