

(Continued from page 16)

more relaxed when she has to go in front of a crowd and having more knowledge about the projects she takes and the goats she shows. She is involved in the robotics club and choir at her school. She has also attended Circle the State with song, is an altar server at St. Francis of Assisi Church, helps out at the Mariah Hill Church Picnic, is the 4-H devotion leader for her club, and she is a member of the Kindness Committee and a peer mediator. Samantha's hobbies include music, coloring, crafts, helping on the farm and playing outside.

Sophia Dilger is the daughter of Nathan and Michelle Dilger. She attends school at Nancy Hanks. From 4-H she has learned that you can have fun while also working on things you like, that you shouldn't rush if you want something to look nice, and how to help others. She has also been able to try new things like models and giving speeches. She helps with the St. Francis of Assisi Church Picnic, was the 2017 Mini 4-H Ambassador, and is her 4-H club's song leader. Sophia's hobbies include music, kickball, crafts, playing outside and helping her mom and dad on the farm.

Senior Ambassador (Grades 9-12)

Seth Thomas is the son of Kevin and Jenny Thomas. He attends Heritage Hills. From being in 4-H he says, "I have learned how to do many activities and have learned life skills I will keep forever." He is involved in the school choir and also participated in many musicals, and he is also a member of Student Council,

Junior Optimist Club, National Honor Society, Beta Club, Business Professionals of America, Natural Helpers, and his church youth group. He was also crowned homecoming king. Seth's hobbies include music, singing, drama, cars, guns, knives, hunting, fishing, forging and doing handy-work.

A WELCOME SENSE OF PREDICTABILITY IN A WORLD OF UNKNOWN

A NEW WORLD DEMANDS NEW HOLLAND.

Confidence is rolled into every bale with a Roll-Belt™ round baler thanks to over 120 years of pioneering hay and forage equipment. No matter your crop, weather or storage conditions, bale density can be conveniently adjusted from the tractor with the in-cab density control system to maximize the crop value of each bale. That kind of flexibility, consistency and productivity is why no one bales more hay every day. Learn more at EquippedForANewWorld.com
