

## A WELCOME SENSE OF PREDICTABILITY IN A WORLD OF UNKNOWN.

### A NEW WORLD DEMANDS NEW HOLLAND.

Confidence is rolled into every bale with a Roll-Belt™ round baler thanks to over 120 years of pioneering hay and forage equipment. No matter your crop, weather or storage conditions, bale density can be conveniently adjusted from the tractor with the in-cab density control system to maximize the crop value of each bale. That kind of flexibility, consistency and productivity is why no one bales more hay every day. Learn more at [EquippedForANewWorld.com](http://EquippedForANewWorld.com)
