

(Continued from page 10)

a property helps develop a home's hardscape. Hardscape and soft elements often work in concert to create inspiring landscape designs.

DIY landscape designers can heed certain tips to make the most of hardscape features.

Choose materials.

As with many landscaping projects, homeowners must first determine what types of additions they would like on their properties. Common hardscape features include patios, decks, walkways of pavers or bricks, and retaining walls. Hardscape elements can be functional or simply decorative features that add whimsy to the yard.

Choose a theme.

The right style allows hardscaping and softscaping materials to work together. For example, homeowners may want to give their yards an eastern feel, complete with a koi pond and decorative bridge or trellis. A formal

English garden, however, may include manicured paths with stepping stones and ornate topiaries. Mixing too many styles together can take away from the overall appeal.

The pros suggest looking at the overall plan of the design, even if all of the work can't be completed at once. This way the eventual finished project will be cohesive.

Think about the purpose.

Hardscaping can look good but also serve key purposes. Pebbles or gravel can mitigate trouble areas that don't grow grass or plant life well. Retaining walls hold back soil in yards with sharply inclined hills. Mulch can set perimeters around trees and shrubs, as well as planting beds. Fencing, another form of hardscaping, is essential for establishing property boundaries and adding privacy.

Consult a professional.

While many hardscaping additions can be handled by novices, large-scale projects, such as patios and decking, can change the grading of the yard. Professionals can map out how to handle drainage issues and meet building codes. In addition, professional installation can ensure hardscaping features last for years to come.

Hardscaping should blend with the nature around it and take its cues from the surrounding environment. This can help softscaping and hardscaping work as one.

Take outdoor cooking to a whole new level

...with this wood-fired outdoor pizza oven that can be also used for roasting meat, vegetables, fish and baking desserts.

the wood-fired outdoor oven

- Handcrafted in Sicily
- #304 stainless steel construction
- Reinforced, stainless steel chimney pipe
- Stainless steel wood caddy & door
- Fahrenheit thermometer
- Color: Hammered copper

NICK DAVIS REAL PEOPLE. STIHL PEOPLE.
HOMEOWNER ASHBURNHAM, MA

BGA 45 BATTERY-POWERED HANDHELD BLOWER
\$129⁹⁵
Includes charger and built-in battery.
★★★★★
"I like the blower because it is compact and lightweight and there is no messing with mixing gas and engine maintenance."
— user hillyard14

BG 50 HANDHELD BLOWER
\$139⁹⁵
★★★★★
"It is a great piece of equipment for the price, plus with the STIHL name, it has dependability I can count on."
— user TL805

BR 600 BACKPACK BLOWER
\$499⁹⁵
★★★★★
"This blower ROCKS! I can't believe how much easier and quicker it is to use."
— user Russiie

MS 271 FARM BOSS®
\$399⁹⁵
★★★★★
"I have owned other saws in this class and the MS 271 has the best power-to-weight ratio that I have owned."
— user Tommy80

FREE EXTRA CHAIN
WITH PURCHASE OF MS 271 FARM BOSS®
Applies to 26 RM3 74 or 26 RM3 81 chain types. Offer valid through 12/31/18 at participating retailers while supplies last. See retailer for details.
