

DURANT NEWS *by Rowena Hill*

Rumors are that our town might probably be getting another factory. All look forward to this being fact instead of rumor. We surely need something good and

profitable in the area.

Love and sympathy to the family of Mrs. Mary Katherine Browning. She passed away during the week at an assisted living center in the Jackson area where she lived for some time. Funeral services and visitation were held Monday afternoon at Southern Funeral Home. It was good to see family and friends. Hope to see them return often for visits. Burial was in Mizpah Cemetery.

Mrs. William (Virginia) Ingram hasn't been well for some time, also pretty much home bound. Let us remember her and others who aren't well and help them in Christian love by giving a ride or maybe a meal out together.

It has been a bit cold for me most of the last two weeks. My home isn't built for the cold. I will be very glad when the weather gets warmer.

Sympathy is extended to the family of Mildred Criswell. She has passed away after being a resident of Lexington Manor for several years. May God bless Aline Self and all the family.

Mr. and Mrs. Milton Hoover remain pretty much "home bound." He is feeling better but Jean isn't too well. Prayers are with them and others and hope to see them well and out and about very soon.

The fishermen around here are coming out of their hibernation. The walleye and crappie will soon ring the dinner bell and the bass will be getting more active as well. The stories will soon be plentiful. I hope the filets will be plentiful. Even though there are many different stimuli that cause a fish to do certain things; one of those is temperature.

In a lake, most fish are more active when the water is neither too hot nor too cold. This time of year, when the sun begins to warm the surface of the water, fish soak in that warmth and become more active. This activity creates the need for food which you and I are glad to provide - at a cost of

Prayers and best wishes are for Henry and Merle Cain. Both have been hospital patients during the last weeks. Hope to see them fully recovered, in church and out with family and friends. They are a blessing to all and fun to spend time with.

Our thoughts and prayers are with Buck and Nell Burrell and family. There was a tragedy in their family during the week. May God bless and give peace to the family and others.

Hope all will have a good week. I for one will be thankful for warm weather again.

course. And sometimes that cost is dear! While fish are becoming more active, the approach for catching them still requires a slow presentation. That is, most bass fishermen right now prefer to slowly fish a jig or a crankbait. Anything too fast will most likely cause that bass to stay sunning next to that rock. As the temperature rises, those same fish will be more apt to react to faster moving baits.

A pastor once told me to never make any decision when I am either too high or too low. If I do, I will most likely make the wrong decision. He was so right! What he was saying was that the temperature of my temperament must be neither too hot nor too cold when making major decisions. I must make sure that I am in my best thinking weather when it's time act.

Some of you right now are contemplating something that you may regret. You may have just been scathed by your boss and you are

Goodman native inducted to honor society

Molly McCleskey, daughter of Ray and Jeri Jo McCleskey of Goodman, was inducted into the Phi Kappa Phi Honor Society at the Mississippi University for Women on November 28, 2017.

Phi Kappa Phi is the nation's oldest and most selective all-discipline honor society. The society's mission is to recognize and promote academic excellence in all fields of higher education and to engage the community of scholars in service to others.

planning your "take this job and shove it" speech. Or it may be you have just gotten a big raise and as a result you are close to buying a red Corvette. For the sake of every member of your family, let me beg you to stop! Don't make a move! Step away from the computer, or the car lot, or even the ledge! Wait until your temperature and temperament is back to normal-functioning mode. When it is, you may still want to fire your boss or buy that Corvette, but you will do so with a clear head. Otherwise, there may be an unwanted hook embedded in a bad decision.

Letter to the Editor

I want to wish everyone a Happy New Year!

On the state lottery, I feel like Mississippi needs a lottery because that money could be used to help the schools, upkeep of the bridges, roads, upgrade the state water system, in every county. That includes the sewage system. The money could be used to set up free health clinics for the homeless and the very poor who don't have health insurance. If Mississippi had a lottery the money could be right here in Mississippi, not Arkansas who got \$84 million on its lottery last year. Mississippi people would not be going out of the state to Arkansas, Florida, Tennessee and Louisiana.

I have read that Ms. Alyce Clarke and others at the Cap-

itol have been wanting a lottery in Mississippi for twenty years. It would be a shame if Mississippi didn't get a lottery. State leaders should do what the people want, give the people a lottery.

There are some who don't want a lottery in Mississippi, shame on them. I do not gamble, but would like to see a lottery in Mississippi to help the people.

P.S. If our elected officials are religious, they should put their religion aside and vote for the state lottery. They also need to keep in mind that the people of Mississippi voted them in office at the Capitol. I think it would be the right thing to do for Mississippi.
