 Emerald Transformer Mississippi LLC, (i.e. "Emerald"), located at 491 Bowling Green Road, in Lexington, MS, (662) 824-3033 has applied to the Mississippi Department of Environmental Quality for the following permitting action: receive a Permit to Construct. A construction application was originally received on November 2, 2017, but a revised application was received on December 11, 2017. Emerald seeks to construct air emissions sources including paint booths, bake-out ovens, a sawing / sanding area, space heaters, and above-ground storage tanks. The applicant's operations fall within SIC Code 7629. A Statement of Basis has been prepared that contains a discussion of the decision-making that went into the development of the permit and provides the permitting authority, the public, and other government bodies a record of the technical issues surrounding issuance of the permit. The Statement of Basis also addresses any changes to emissions and/or discharges resulting from any modification of the facility.
 Emerald is a new proposed facility that plans to primarily perform repair operations on pole-mounted transformers and pad-mounted transformers. Additionally, decommissioning operations on the aforementioned transformers will be performed but as a secondary action. The potential maximum emissions from Emerald do not trigger Title V thresholds.
 The staff of the Permit Board has developed this draft permit based on information submitted to the Permit Board by the applicant, appropriate State and Federal agencies and other interested parties. The staff of the Permit Board is soliciting all relative information pertaining to the proposed activity, including public comment, to ensure that the final staff recommendation on the draft permit complies with all State and Federal regulations. Public review and comment on the draft permit and supporting documentation is an important element in the staff evaluation and resulting recommendation to the Permit Board. The draft permit conditions have been developed to ensure compliance with all State and Federal regulations but are subject to change based on information received as a result of public participation.
 Persons wishing to comment upon or object to the proposed determinations are invited to submit comments in writing to Mr. Jaricus Whitlock at the Permit Board's address shown above, no later than the end of the thirty (30) day public notice. All comments received by this date will be considered in the formulation of final determinations regarding the application(s). A public hearing will be held if the Permit Board finds a significant degree of public interest in the proposed permit(s). Persons wishing to request a public hearing may do so by submitting that request in writing to Mr. Jaricus Whitlock or the Chief of the Environmental Permits Division at the address shown above.
