Pay it off!

Dear Dave, I can't decide what to do about my car. I owe \$8,000 on it, and I have the cash to pay it off with plenty left over. One of my co-workers said I shouldn't pay it off, because I have a very low interest rate on the loan. What do you think?

Derricka

Dear Derricka, What do I think? I think your co-worker is broke. Taking financial advice from broke people is like taking dieting advice from fat people. In other words, it's dumb.

Pay off your car, and never borrow money to buy a car again for the rest of your life. If you want to win with money, you have to get out of the land of car payments. The idea that you're stuck with car payments — that you're always going to have one — is the mantra of those who've given up hope. You are in charge of your life. You are in charge of your financial situation. Don't be like all those folks out there who whine about stuff like stagnant wages and are unwilling to get up off their stagnant butts to make their lives better.

Derricka, pay off your car today. And please, don't take any more financial advice from broke people!

Dave
