

Career Exploration Day at Holmes County Career and Technical Center

Photos by Matthew Breazeale

Pictured from left: 11th grade students Shirley Vaughn, Tamara Johnson, Kristalana Johnson and ShaQuan Gibson speak with Lisa Campbell, program manager at Mississippi Development Authority.

Pictured from left: Raymond Liberto with MedStat speaks with students including Jodie Williams and Eddie Brock about a career in medical services.

Pictured from left: 12th grader Sanquisha Thomas is shown how to use the auto-body paint simulator from Holmes Community College by instructor Casey Caldwell.

Pictured from left: Dennis Tillman, 11th grade, Artavious Brown, 10th grade, and Gregory Smith, HCCTC industrial maintenance instructor, visit with Betsy Padgett, Mississippi State University Extension.

Pictured from left: Tredell Meeks, 11th grade, Shaquan Gibson, 11th grade, and Eddie Brock, 11th grader, watch Entergy Lineman Randle Richard demonstrate the dangers of electricity with the "Arc and Spark" simulation.

Pictured above: 11th grader Jodie Williams participates in Mississippi Department of Transportation's distracted driver computer simulation. Williams was required to "text and drive" to show its dangers of doing so.

Pictured above: Holmes County Career and Technical Center Director Shintri Hathorn inspects a solar-paneled powered car, named Tushika Hashi or Sun Warrior, brought for display by Choctaw Occupational Training Center.

Pictured at right: senior Willie Wade, who is currently enrolled in the auto-body collision program at HCCTC, learns about dental health and hygiene related careers from the Mississippi Department of Health's career display.
