

CJHS students collect art supplies for Batson kids

Special to The Clinton Courier

After finding out that one of the best things that the Blair E. Batson Children's Hospital receives for their young patients is art kits, last year's Clinton Junior High School Honor Society created over one hundred of them to donate. This year, the group collected art supplies again, but they nearly doubled their donation, preparing 175 kits to donate. The kits are used by children who are unable to get out of bed to go to the playrooms.
