

4-H Offers Unique Leadership To Grades 6 And Up

Have you ever heard the phrase, "Youth led, adult guided"? It is a concept that we do our best to live by in 4-H. We believe in training up the younger generation to take initiative and provide leadership where often adult would provide it.

A great example of this is during the Clay County Fair, where this year we will have 17 youth running various program and overseeing operations throughout the 4-H events at the fair.

Our prized "Green Team" helps run the animal shows, announces at the awards ceremony and much more. Our Food Stand team makes sure your meal tastes great and that you get great service while visiting the 4-H Food Stand.

Our Social Media and Tech teams make sure there is sound equipment at each event and that each event gets photographed and highlighted on social media.

To say the least, these kiddos are busy making the 4-H events operate as smooth as a hot knife through butter.

For those interested in any of our Youth Leadership Teams, applications are made available each May, a giant FUN training is held in June, and then they put their skills to the test each July at the Clay County Fair.

Welcome to the Clay County Fair!
