"HOME OF THE WILD & MILD FINLANDER"

## Refresh your home's appeal with furniture paint

Furniture, bookcases, cabinets, and doors present opportunities to add or change color throughout a home. Woodcraft offers an extensive line of furniture paint, tools and supplies necessary for successful painting projects. In addition, Woodcraft retail store associates are always ready to help customers, and extensive how-to material is a click away at woodcraft.com.

Lori Harper, Woodcraft public relations manager and blogger, offers some advice about updating a kitchen: "Painting kitchen cabinets is a big job, but it can transform the look of your kitchen at a fraction of the cost of new cabinets. It may sound daunting, but breaking it down into bite-size steps can take away the fear factor."

To read her project blog, visit Woodworking Adventures on Woodcraft.com and search for "Kitchen Cabinet Conundrum."

### Paint & Color Selection

Three easy-to-use and easy-to-mix paints are:

- Black Dog Salvage Furniture Paint is a water-based, low-VOC, matte finish paint for indoor use that requires only cleanup before painting, except in the case of chips and scratches, and adheres to wood, metal, glass, ceramics, and plastic.

- General Finishes Milk Paints are premixed water-based acrylic paints suitable for a variety of interior or exterior applications from furniture to crafts.

- General Finishes Gel Stains are heavy-bodied gels formulated to flow evenly for consistent color control.

Before you pick up a paint brush, consider which colors are best for the area you plan to refresh. Choices will need to complement wall color and colors of other pieces or accents in a room. Two handy color guides are the 36-page General Finishes Milk Paint Fan Deck and the Black Dog

Painting cabinets with General Finishes Seagull Gray Milk Paint and Pitch Black Glaze Effects gave this kitchen a more modern, yet welcoming farmhouse look.

Salvage Furniture Paint Color Recipes (available for download as a free PDF on Woodcraft.com).

For more than just a change of color, consider creating decorative effects, such as distressing, antiquing, faux marble, or rag rolling. Choose General Finishes Pearl Effects to make it easier to create specialty finishes.

### Repair

If furniture, cabinets and other surfaces need repair prior to painting, the Mohawk PermaFill Wood Touch-Up and Repair System is an easy answer. Just pop in a color cartridge (six color families available), power on the battery-operated dispenser, aim, fill and level this durable repair. Briwax ChaiRX is perfect to fix loose parts in chairs. Drill a small hole, inject ChaiRX, and in 12 hours the thin unique formulation will penetrate the wood cells and permanently swell the joints and bond them together. Visit <https://youtu.be/iWMu6OKyOUE> to watch a

video that demonstrates these products.

For more extensive repairs, use the Kreg Jig R3 Kit to reinforce weak parts with pocket holes and avoid complete disassembly of your project.

### Clean and Prep

Use Krud Kutter TSP Substitute to remove dirt, grease, smoke, mildew, food stains, crayon, wax, and more from surfaces to be painted so paint will adhere better. For sanding chores associated with painting, consider the Porter-Cable Restorer Hand-held Drum Sander with attachments, which is designed to remove paint and finish from wood, brick and fiberglass, as well as remove rust and polish metal. The Porter-Cable 382 5" Random Orbital Sander and the Norton 5" Random Orbital Sander are other good choices. For sanding with hand power, the Preppin' Weapon Sanding Block Kit and Norton 41/2" x 51/2" SoftTouch Sanding Sponges are handy helpers.

### Application & Topcoat

If spraying is your preference, HOMERIGHT Finish Max Fine Finish and HOMERIGHT Super Finish Max HVLP Sprayers are easy to use on everything from furniture to fences with oil- and water-based products such as chalk-style paint, latex paint, milk paint, enamels, primers, polyurethanes, stains, and varnishes. Large and Small Spray Shelters make painting furniture easier.

For painting by hand, Black Dog Salvage Furniture Paint Round Brushes, made from both natural and synthetic bristles, and Redtree Matey Synthetic Bristle Brushes work well.

Give paint extra protection with Black Dog Salvage Guard Dog and Show Dog Topcoats and General Finishes Gel and High Performance Polyurethane Topcoats.

To learn more about these and other products, visit your local Woodcraft store, call (800) 535-4482 or visit [www.woodcraft.com](http://www.woodcraft.com). FH188277

## IMPROVE YOUR ONLINE EXPERIENCE AT HOME WITH MANAGE MYWI-FI

You love having a Wi-Fi network, but not the hassles of equipment upgrades and troubleshooting. That's why we offer Managed Wi-Fi. Our team handles it all for you, so you can simply enjoy strong signals and fast Internet throughout your home.

**MANAGE MYWI-FI FOR JUST \$6.95/MO.\***

## Did you know?

According to the home improvement resource HomeAdvisor, adding square footage to a home can cost homeowners anywhere from \$7,000 to \$100,000. When adding square footage to a home, homeowners may need to knock down an interior wall or walls, the cost of which can vary widely depending on the walls being knocked down. Load-bearing walls are needed to support the home, and while such walls can be removed, homeowners may need to hire structural engineers at additional cost to orchestrate such removals. In addition, homeowners can expect to pay more when knocking down walls that contain ducts or electrical wiring. It also can be costly for homeowners whose homes are old to knock down walls. HomeAdvisor notes that the wall-removal process in old homes that contain lead paint or lath-and-plaster walls is more intricate and may cost homeowners more money. FH188181
