

Lyons Dental Care has been providing service to Rice County residents more than 50 years

A brand new state of the art facility and caring, professional service await patients that visit Lyons Dental Care.

For nearly 52 years Dental Care at 220 W. Commercial Ave has been available to residents of Lyons, Rice County, and surrounding areas. A totally renovated office and the addition of state of the art equipment allow for the most modern dental procedures in a comfortable environment.

Preventive Care
Preventive Care is emphasized with 4 hygienists on staff to help patients maintain healthy smiles and offer care to keep oral tissues free of disease. Since there is a strong correlation between Oral Health and Heart Disease, this care is important for overall health.

Orthodontics
Orthodontic services are provided by all doctors associated with Lyons Dental Center. All dentists are members of The American Orthodontic Society and attend ongoing Continuing Education Courses to maintain high standards of care. Interceptive Orthodontic Care is emphasized to gain early correction and often shorten overall treatment time. Correction of many problems can be done at an early age and even if “braces” are needed later, less time is required to complete the process.

Adult Orthodontics is also offered to patients needing minor correction. This treatment is often done with “invisible” types of appliances that are removable. Invisalign® and other similar appliances are available to patients that require this specialized treatment. If you have questions about Orthodontic or other cosmetic type procedures we can help you

The Value of a Smile

It costs nothing, but creates much good. It enriches those who receive it without impoverishing those who give it away. It happens in a flash but the memory of it can last forever. No one is so rich that he can get along without it. No one is too poor to feel rich when receiving it. It creates happiness in the home, fosters good will in business, and is the countersign of friends. It is rest to the weary, daylight to the discouraged, sunshine to the sad, and nature's best antidote for trouble.

Yet it cannot be bought, begged, borrowed, or stolen for it is something of no earthly good to anybody until it is given away.

And if in the hurly-burly bustle of today's business world, some of the people you meet should be too tired to give you a smile, may we ask you to leave one of yours? For nobody needs a smile so much, as those who have none left to give.

improve your smile. Implants can replace lost teeth and restore normal function. We can answer your questions with an

exam appointment. Sedation Dentistry provides a way for dental care in a relaxed state. This also allows for fewer appointments for patients needing more extensive care. Ask us how we can help you manage the care you need.

TMJ-Bruxism
Joint pain and tooth wear due to Bruxism-grinding are major concerns. Over 50% of patients have symptoms. Clenching at night is also a problem not known to the

patient. Exams are needed to identify treatment before symptoms become more severe.

Whitening
Whitening with custom trays fitted to the patient's mouth are the most effective. Ask us about this service.

Crowns & Fillings
All our crowns and fillings are tooth colored. Most crowns are now made with a zirconium material that has no dark gold or metal substructure.

Cosmetic Procedures
Cosmetic procedures can change tooth color, reshape chipped, worn, or damaged teeth and provide “instant orthodontics” for teeth not in alignment. Ask us how this can work for you.

Dentures and Partial Dentures
Dentures, re-lines and re-bases (new plastic bases) and partial dentures are a part of the services we offer. Partials without metal clasps are available for better cosmetic results. A consultation appointment to discuss options is available.

Sleep Apnea/ Snoring
Oral appliances can benefit patients with mild sleep apnea. Snoring appliances create a better night sleep for the patients and those

Lyons Dental Care LLC provides the latest technical advancements and quality care for every patient.

around the patient.

Lyons Dental Care LLC is part of a group of four offices and four doctors in Lyons, Inman, McPherson and Hillsboro. Emergency Care is available in all offices. Lyons is closed on Fridays, McPherson has office hours to cover emergencies. All doctors will respond to emergencies by phone when possible after hours. Patients have access to multiple

doctor's numbers. Our goal is to serve you with dedicated care to help you maintain lifelong dental health. New patients are welcome. We appreciate our current patients who recommend us to family members and friends. For our Spanish speaking community, Dr. Perry and at least one team member are bilingual. Thank You For The Opportunity of Serving You!
