

Farmers Bank & Trust continues to provide small-town service

Travis Thompson, Vice President and Regional Manager of Farmers Bank & Trust, is the manager of the Farmers

Bank & Trust Branch in Larned. The branch is located at 102 W. Sixth St., Larned. Farmers Bank has a rich history

of serving customers in central Kansas and their extensive experience in agriculture, oil, and manufacturing has been

an asset for the community.

More than a century ago, early day founders of Farmers Bank and Trust opened a bank in central Kansas with \$10,000 in capital. Its name accurately reflected its customers who mostly carved out their rural livelihood by toiling the miles of fields that overlay the outskirts of their town.

Farmers Bank continues to provide small-town service where it owns and operates banks. As a group, six branches in central Kansas includ-

ing Great Bend, Albert, LaCrosse, Kinsley, Bazine and Larned have established Farmers Bank as a strong area bank. Farmers Bank moved into Overland Park 17 years ago, adding to the diversity of customers. The bank holds onto the name that accurately reflects the community's Midwest values and its "sweat-'o-the-brow" agrarian heritage. "The roots that were started in Albert, Kansas, obviously continue to run deep for us," said CEO and Corporate President W.R. Robbins.

Today, Farmers Bank is strong in bank ratings for financial stability and capital strength with capital reaching over \$137 million and total assets over \$808 million. The team of highly experienced, tenured employees delivers outstanding customer service.

Farmers Bank & Trust is proud to be a full service bank. "Farmers Bank is able to help farming families with all their banking needs, including loans for operating, cattle, equipment,

Honest Dependable Service!

ILS

INNOVATIVE LIVESTOCK SERVICES, INC.

ILS would like to thank all of our employees and their families for their hard work, dedication, and commitment in 2017.

We feel very grateful to be part of such a great community where so many local businesses support us every day in what we do. Many of these businesses are an extension of our family and we could not produce grain and healthy beef without them.

Our focus in 2018 is to empower our people and communities. Composting animal waste creates a better natural fertilizer for your gardens and our fields by promoting better weed control with less chemicals. As a part of this commitment, we are going to be putting on a "Free Compost Day" this spring. We will be offering nutritional rich compost for your garden so you can grow great food for your family! Check for information on this project or learn more about our company at www.ilsbeef.com or find us on Facebook and Twitter.

Our promise to care for the land and our cattle is built on our core values of trust, integrity, and accountability.
