Historic Kimple home for sale in Ellinwood

By KAREN LA PIERRE
The mid-century modern home, 520 W. 4th St. in Ellinwood, which boasted of all of the latest innovations of the early 1950s, is once again up for sale.

After only three owners, the historic home now owned by Richard and Linda Kimple has been put on the market as they prepare for a permanent move to Colora-

do. They have purchased a home near family. The Kimples still have business interests in the area and will be back from time-to-time. Both are natives of Kansas. Custom built by "Shorty" and Opal Lanterman, the home was built on a plan that was in "House Beautiful." No small detail was missed in the "Climate-Wise House."

Richard and Linda Kimple sit in front of the fireplace in the living room of their historic home on West 4th Street in Ellinwood. (photo by Karen La Pierre)

www.kelleragency.com

"The plan is one that they followed," said Richard Kimple. "Some they modified just for

them. "It is a great house." The house took 13 months to build, according to a Nov. 15, 1953 article in the *Hutchinson News Herald*.

The article was called, "Lanterman Dream Home Long in Planning: Innovations Many In House At Ellinwood."

It was built by the same builder who built the Lutheran church. The Lantermans had no children. Shorty was in the oil business, and they had plenty of money, Kimple said.

"They built a house worth way more than its market value in Ellinwood," Kimple said. "If I set this house in Fort Collins, Colo., it would be worth a fortune."

There are three wood burning fireplaces. Two of them have marble accents and one, oriental accents. Kimple converted two of the fireplaces to gas.

A lot of the craftsmen were from Hutchinson and Wichita, with a few from Ellinwood.

Three rooms have recessed neon lighting, meaning there are no bulbs that ever need changed. The lighting strip runs around the outside of the wall.

The house has a low roofline with high ceilings, which was not easy to accomplish, Kimple said. The rooms have curved ceilings where the roofline comes down.

The entire house has heat in the floors.

"It's designed very efficiently," Kimple said.

With only three owners, Vernon and Betty Miller owned the house next. The Kimples purchased in house in 2001.

The house has never had any children live in it and is in immaculate condition. None of the woodwork is dinged up.

Closets, closets, closets, would be another theme of the house. The master bedroom has a full wall of built-in cedar closets next to the fire place and wood parquet flooring. The en suite bathroom has two sinks and two walls of closets with a separate shower and bath.

Each room has a call button for the maid. In the master bedroom, is a set of light panels, showing which lights were left on. Also, there is a switch to turn on all of the outside lights.

A wet bar and a concrete lined vault are in the great room. The flooring in much of the house is manufactured marble. A pass-through for wood is available for this fire place.

Outside, there is a little waterfall and stream with a small orchard and walking trail in the back.

About all of the remodeling that has been done is updated floor coverings and paint. The kitchen has new counter tops and lighting. All told, the house itself is approximately 4,800 square feet.

The three car garage has a full wall of storage. "It's a gorgeous old house," Kimple said. "It's a fun house to live in."
