

A love of nature starts early. Ours did too.

Did you know that frogs are an indicator of the health of water systems? At Alabama Power, we've been helping manage and protect Alabama's natural resources for more than a hundred years, partnering with organizations across the state to preserve the health of our river ecosystems. Plus, we work hard to care for wildlife habitats and give endangered species the chance for a future. Because we love nature - and frogs - as much as you do.
