

# What's New at Tom Blue!

Tom Blue Furniture is known for their synonymous high-quality, handcrafted furniture. The Blue family established the company in 1938 and after Tom Blue passed in 1987, the family continued crafting his signature talents from solid cherry, walnut and oak. The co-owners are Perry Blue, son of Tom Blue, Sr., Ruth Ann Mason, granddaughter of Tom Blue Sr. and Mike Mason. Ruth Ann runs the store and Mike runs the shop.

The family tradition of top quality handmade bedrooms, living rooms, and dining room furniture will likely never change, however, what's exciting to learn is that Tom Blue Furniture is also very much up-to-date with current furniture trends; all top quality of course!

"A lot of people still think of us for our reproduction of antiques, and we still specialize in that," says Ruth Ann. "We have pride in that what we make is solid wood". "But we've also changed with the times, making newer styles". The company makes

over 100 pieces per year, still using solid walnut, cherry and oak.

"Decorators come in to look and choose our pieces", said Ruth Ann. "It's a big part of our business." Tom Blue's top quality manufactured brands include: Bernhardt, Canadel, Comfort Design, Jasper, Kincaid and Temple Furniture; many of which are displayed in their 10,500 sq. ft. showroom, or can be ordered.

The Tom Blue trademark is in their logo "Furniture with a Future", and that pretty much sums it up. One need not worry about the quality of their purchases. The company points to customer service and quality as keys to longevity.

Other parts of the business include; lamps, pictures, mirrors, accessories, custom upholstery and Serta brand mattresses. For more information or to view their top brand furniture pieces, visit their website at: [www.tomblue.com](http://www.tomblue.com) or visit Ruth Ann and Mike at the store, on 2737 Veach Rd. They're happy to serve your furniture needs!

Visit us for high-quality top brand furniture, mirrors, lamps, pictures & other beautiful home accessories!

Or choose from hand-made furniture in solid cherry, walnut or oak.

## Quality Unique Lighting

Lighting Solutions Design Gallery, a local family owned business, holds over 300 unique lighting fixtures in their 3,000 sq. ft. showroom. They're not your local BIG BOX store where you have the regular "ho-hum" lighting to choose from. This showroom carries very unique fixtures.... and the best news is; **they price below internet pricing** to make sure their customers get the best price on quality purchases!

"Even if you're not working with a custom builder, we offer a whole house package "builder discount" for our customers," says Deborah Heady, owner of Lighting Solutions Design Gallery.

Deborah has 25 years experience in the building and lighting industry. She opened her showroom on Salem Drive two years ago, but most people don't realize this amazing lighting

company is open to the public. Deborah, who is very humble about her business, mentioned they also frequently work with local interior decorators as well as builders.

One of the bigger brands Lighting Solutions Design Gallery carries is Capital Lighting Fixtures, a company that delivers stylish, high-quality, timeless beauty in today's styles. They also have decorative mirrors and lighting in traditional, transitional, and modern styles to fit any home décor.

Deborah lets you know immediately she truly cares about her customers; so whether you're building a new home and need help with lighting design, or just in need of a few quality lighting fixtures, check out Lighting Solutions Design Gallery at 620 Salem Drive in Owensboro.
