

Tranquility Lighting Design

Nighttime Functionality and Appeal to Outdoor Living Spaces

The addition of outdoor lighting to residential and commercial property offers an incredible extension of time in which to enjoy the unique beauty that is hidden within the darkness. While providing nighttime functionality and appeal to outdoor living spaces along with an extra layer of security, it creates a soothing sense of comfort absent during the daylight hours.

Tranquility Lighting Design is a family-owned and operated company based in Owensboro, Kentucky. They pride them-

selves in continued education and knowledge regarding the vast world of nighttime illumination. With the world of lighting rapidly transitioning from incandescent lamps to energy efficient LED technology, owner operator Jimmy Kidd says they've shifted their paradigm of thought and design to educate themselves and their clients on the new products and advances in semiconductor solid-state lighting.

It's not difficult to find companies that offer many different services, but often times is at the expense of quality. However Tranquility Lighting Design takes pride in the fact that lighting design, installation, and service are their **only** focus. This local company installs products of the highest quality that are proven to be reliable and complimentary to your property. "Customer satisfaction is our driving force keeping craftsmanship at the forefront of our business model," says Jimmy. "Each customer's taste and needs are unique along with the potential beauty in each property. That's why the first step in our design process is a **FREE Onsite Consultation** with the customer to determine personal wants, needs, and con-

cerns for their outdoor lighting and landscape lighting projects."

"We'll craft a one of a kind design with our professional insight specific to the property owners' personal needs and expectations. Installations are completed in a timely manner and are minimally invasive to customer's property and landscape," stated

Jimmy. Once the lights are installed, Jimmy and his team return for a nighttime reveal that is sure to change the way you perceive the property you have worked so very hard to own. For more information please view their beautiful nighttime picture gallery at www.tranquilitylights.com and call Jimmy Kidd at : 270-485-3371.

LANDSCAPE LIGHTING

Outdoor lighting offers an incredible extension of time in which to enjoy the beauty of your residential and commercial property.
