

For beautiful bathrooms, kitchens and cabinets

By Linda Dillon

In 2018 Winsupply & Bath & Kitchen Idea Center partnered up with Phill's Cabinetry. "It was a perfect marriage for completing our customer's bath or kitchen remodels," stated Jenney Payne, Showroom Manager at Bath & Kitchen Design Center. Together the companies can now provide their clients gorgeous cabinets, in addition to beautiful counter tops, bathtubs, showers, sinks, plumbing and lighting. Phill's cabinets are built locally to exact specifications for about the same price you'd pay at a big box store.

"We can now deliver cabinets built of the finest materials, locally constructed, using methods that produce the highest quality," says Jenney. "With cabinets 'custom built' right here in Owensboro, our customers can have any door style with all solid colors and stains at the same price as going directly to Phill's. 'You won't have to worry about any up charges for Phill's cabinets being purchased through Winsupply'."

In addition to the cabinets being locally made, Winsupply also offers clients free financing, free delivery and a 10 year war-

ranty on all Phill's cabinetry. "The lead-times after signing off are approximately 3-4 weeks for delivery, and if there are any issues, the turn around time is 24-48 hours," Jenney says.

The Bath & Kitchen Idea Center is a perfect fit for the "do-it-yourselfer" homeowner replacing a single faucet, outfitting an entire house, or for a professional contractor referring their customers. Whether you're selling a home, or just contemplating a small remodel, the Bath & Idea Center has items that will fit any budget. "When walking into our 5,000 sq. ft. showroom, keep an open mind of how you want to update your space. Some customers find that just starting with a new bath or kitchen faucet can really shape the rest of the room," Jenney said. "It's always helpful to let us know your budget so we can show you things that will fit into that total perfectly."
