

Stombaugh-Batton Funeral Home, Inc.

Family-owned operation since 1979 • 225 W. Findlay Street • Carey

Stombaugh-Batton Funeral Home, a family-owned operation, serves Carey and the surrounding area.

David Stombaugh and his father, the late Robert C. Stombaugh, started Stombaugh Memorial Funeral Home in 1979. Brad L. Batton joined the firm as part owner in the fall of 1996.

In early 2000 the name of the firm was changed to Stombaugh-Batton Funeral

Home, Inc. The Battons became sole owners in 2007.

Being family-owned and operated is very important to the owners. Brad's wife, Joan, is associated in the daily operation of the business. Although no longer an owner, David is still active as a licensed funeral director. Merv Kauffman and Mark Gossman assist with visitations and funerals.

Developing and provid-

ing educational material and considering the need for pre-planning and pre-financing a funeral through either trust or insurance funding are some of the additional services offered by Stombaugh-Batton Funeral Home.

Brad is available for educational presentations on topics related to death and dying, care of the bereaved and funerals. He also provides a complete line of

monuments and markers through their company, Stombaugh Memorials. The company has been a direct broker of granite since 2000, "allowing us to sell high quality granite at extremely low prices," Batton said.

The funeral home is com-

pletely accessible for the handicapped.

Stombaugh-Batton Funeral Home can be reached by phoning 419-396-7520.

Stombaugh-Batton Funeral Home employees include, from left, Brad Batton, Mark Gossman, David Stombaugh, Merv Kauffman and Joan Batton.

Vaughn Industries, LLC

Total commitment to safety, quality and customer satisfaction • 1201 E. Findlay Street • Carey

Vaughn Industries is an electrical, mechanical, high voltage and renewable contractor located in Carey, Ohio, and Lewis Center, Ohio.

Vaughn's success is a result of over 700 dedicated employees constructing projects with quality, from schools, hospitals and hotels to high voltage transmission and distribution lines and high voltage sub-stations to over 400 megawatts of renewable

solar energy.

"Creating jobs, that's what it's all about," Tim Vaughn expressed, and it's "for the betterment of the community."

"Our apprenticeship program not only offers training for the skilled trades, but puts people on a path for a great career," Vaughn said.

Vaughn Industries continues to grow, hiring 82 new apprentices this spring, for our electrical, high voltage and HVAC divisions. Our crews continue to work all over Ohio, Indiana and parts of North Carolina.

Here at our corporate office in Carey, we just

broke ground on a four-story, 19,000 square foot office addition, to accommodate our current and future growth.

Exciting things are happening in Carey, with the completion of the 126,000 square foot Hanon Systems Expansion, the

new Blanchard Valley Health Systems Medical Office opening in August, Taco Bell breaking ground in early June, Casey's Country Market and Gas Station coming soon and more to come!
