rested March 6 at the Green County Judicial Center by Court Officer Gordon Price on a Green County Warrant.

Deadline for news and advertising is 2 p.m. central time Monday. However, earlier is always better.

Rollout of new driver's licenses delayed

BY DON SERGENT
BOWLING GREEN
DAILY NEWS

Nearly all Kentuckians will have to wait a while longer to get the new driver's licenses that are fully compliant with the federal Real ID Act.

The Kentucky Transportation Cabinet released in January a tentative schedule for implementing Real ID. But according to an email sent Wednesday by KYTC Public Affairs Director Naitore Djigbenou, the KYTC will begin the pilot rollout of new driver's licenses in early April in Woodford and Franklin counties and will monitor progress before expanding to additional counties two to three weeks later. The county-by-county phased implementation is still expected to end within two months, Djigbenou

said.

"A system of this magnitude requires extensive testing to identify issues and correct them before implementation," Djigbenou said in the email. "Our testing revealed the need to re-evaluate key areas of the system critical to a smooth rollout. This phase is doing what it should: revealing unique programming scenarios that need to be corrected and updated before the rollout. We only get to launch once, and it is worth taking the time on the front-end to ensure we present a quality system."

Warren Circuit Court Clerk Brandi Duvall said current Kentucky driver's licenses are good under federal law until Oct. 1, 2020, after which one of the new travel IDs will be required to board a domestic flight, enter a mili-

tary base or enter a federal facility.

The travel ID, which will have enhanced security features, requires you to present an original or certified copy of your birth certificate or a passport, your non-laminated Social Security card and two proofs of Warren County residency (deed, lease, utility bill, piece of mail, etc.).

An option to avoid having to round up the various documents is a "standard" license which doesn't require additional documentation if you have a current license or ID. But, in order to fly domestically, standard card holders will need to have a valid passport or check with the Transportation Security Administration to determine what other forms of identification are acceptable.

Standard or travel ID isn't the only choice

people will have when they renew their driver's licenses.

Everyone age 21 and over will have the option of choosing a travel ID with either a four-year or an eight-year life span. Eight-year cards will cost \$48, and four-year cards will cost \$24. The standard license will cost \$43 and is good for eight years.

People holding a commercial driver's license will be required to take the eight-year option and, beginning in 2023, all cards issued will have a mandatory eight-year life span.

Public Notice

East Kentucky Power Cooperative, Inc. (EKPC) is proposing to rebuild, operate, and maintain its existing McKinney's Corner substation facility in south-central Green County. The McKinney's Corner substation is located on the west side of US Hwy 68 (Edmonton Road) just west of the intersection of T Davis Road in Greensburg, KY. Based on the preliminary design, the proposal would include a new 69 kV distribution substation and replacement of the first three structures of the tap line.

The U.S. Department of Agriculture, Rural Utilities Service (RUS) is considering an application from EKPC for financial assistance to construct the proposed project. Actions taken by the agency for the referenced project may be undertakings subject to review under Section 106 of the National Historic Preservation Act, 16 U.S.C. § 470f, and its implementing regulations, "Protection of Historic Properties" (36 CFR Part 800). This act requires federal agencies to consider the effects of its undertakings on important historic properties listed or eligible for listing in the National Register of Historic Places (NHRP).

On behalf of RUS, EKPC is seeking to identify persons who are interested in participating in the process for evaluating the potential effects of this proposed project on historic properties located in the project area that are listed or eligible for listing in the NHRP. If you have a legal or economic relation to properties that will be affected by the proposed project, or if you have a demonstrable interest in the historic built and/or archaeological environment in the project area, you are invited to participate as a consulting party in the Section 106 review process. If you believe you meet these criteria and you wish to participate as a consulting party, please send a letter with your contact information and statement of interest, to Josh Young at josh.young@ekpc.coop, or at East Kentucky Power Cooperative, 4775 Lexington Road, Winchester, KY 40391.

Wager

From page 9A

on phones that could be used to bet on sports anywhere else in the state. Such wagering would fall under the jurisdiction of the Kentucky Horse Racing Commission — with tracks paying a \$500,000 fee for a license — with wagering at those properties to be taxed at a rate of 10.25 percent and wagering on the app taxed at 14.25 percent.

While a study com-

missioned by the Keeneland horse racing track estimated that sports wagering alone would create at least \$20 million in new annual tax revenue — with most dedicated toward paying the state's underfunded pension systems — critics like the Family Foundation of Kentucky questioned if it would breed political corruption and prey on gambling addicts.

Despite the prob-

able setback this session, Koenig said, "I really like the chances" of a similar bill passing during next year's session.

"We will regroup and reload with a better plan to win the hearts and minds of the public next year," said Koenig. "We will only need a simple majority, and it will be a budget year where that \$20-48 million will look a lot more important."

Flu

From page 1A

Persons who develop flu symptoms should seek medical advice about the need for a medical evaluation or treatment which could shorten the course of the illness or reduce

its severity.

Activity levels are tracked weekly as part of the national flu surveillance system at the Centers for Disease Control and Prevention. Weekly flu activ-

ity reports for Kentucky are posted on the Cabinet's website each Friday by noon. Go to www.chfs.ky.gov and type "flu" in the "What can we help you find?" toolbar.
