

Cooper, Walker to co-coach bowling teams

Tammy Cooper and Johnathon Walker were announced as co-head coaches for Green County Middle and High School bowling teams.

Cooper, a resident of Green County since 2011, was an avid bowler when she was younger and recently picked the sport up and became involved again.

Cooper is no stranger to the school. After she received her Bachelor's degree from Morehead University in May 2018, she began substitute teaching October 2018 for the Green County School system.

A 2014 Green County High School graduate and fellow bowler Johnathon Walker looks forward to being a positive impact

as he has returned to his Dragon lair. Walker was a great fit for the team, his experience as a competitive bowler spanned from youth tournaments, the high school bowling team, and he even experience the college realm when he competed for a college team.

This opportunity was a new one for both Cooper and Walker, as first time coaches, they have looked forward to having a positive impact.

"I want to be a positive influence while helping them and I want them to have fun as they learn and grow as a team," said Cooper. "I want to show them that hard work can still be fun for them, seeing them de-

velop their skills over time, but still enjoying it as they do so."

After a number of bowlers from both boy and girl teams graduated last year, one goal of the coaches is to build interest among students and rebuild the team.

Cooper. "We each have areas of strength that when combined we can pass on to the athletes in a positive manner. It will take time and effort. We as coaches need to provide them with the right skills and motivation to succeed."

Bowling is both a mental and physical sport; the coaches planned from the start to focus on the team as a unit and strengthen the teams self-motivation to go the extra step to improve.

"When an individual improves, the team improves," said Walker. "It's not going to be easy at first by any means, it's not going to be a one year turn around to being the best or being great; it's going to take

some work and practice, but I believe we have a great bunch of talented young athletes that if we develop a great team atmosphere we will succeed."

One shared motto is work as one, as a team, not just being focused on an individual. Down the road Walker would like to see the student-athletes have fun and earn success, high hopes for both the boys and girls teams to earn a bid to the State Tournament.

An informational session will be held in the near future with date, location, and time to be announced. Anyone who has a middle or high school child interested in joining the bowling team is invited to attend.

Dragons compete in Bardstown

The Green County Dragons' golf team competed in Bardstown Saturday, Aug. 10. The top five scorers included: Briley Sharpe-72, Austin Curry-94, Devin Day-87, Joey Henderson-115, and Ayden Olson-93. Colen Ervin recently joined the team for his first year in golfing.

Devin Day hits the ball long to move it onto the green. He shot an 87.

Cross Country Time Trials

Taking off pushing for a good mile time the girls' varsity team takes off. The cross country team will have a friendly competition with an inter-squad race tomorrow.

Middle school cross country runners round the curve to complete the half mile Saturday morning during the time trials.
