Fun Days thanks

To the Editor:

Appreciation for all who contributed to the success of S.V.F.D. auction and all of S-ville Fun Days!

Special thanks for the generosity of the contributors to the annual Summersville Fire Dept. auction and also, to the generosity of the auction crowd for making it an awesome event. A prime example is a country ham selling for over \$600 and cakes selling for over \$100!

Just as awesome was the fantastic news coverage by the Record Herald and the radio stations.

We want to say a special thanks to the Summersville laundry mat for opening their doors for the quilt show due to some remodeling issues at the former S-ville School. We want to recognize a new business in Summersville: The Caterpillar Crossing for volunteering their business as a new voting location for candidates for Mr. and Mrs. Summersville.

Many thanks to everyone who helped in any fashion at the 2 day event, and to all the behind the scenes efforts prior to Fun Days. We have learned from the oyster: with a little grit it can produce a pearl! Our community came together over 30 years ago and formed a "pearl" when the S.V.F.D. was created! That grit has helped our fire dept. family to remain strong down through the years and we feel truly blessed.

Sincerely,
Summersville Fire Dept. and Fun Days Committee

Rotary Club reduces polio

To The Editor:

Rotary International is a global organization.

World Polio Plus Day is October 24, used to recognize the progress made and awareness about stopping this horrible disease. Rotary Clubs have made a tremendous effort to end Polio. Cases have been reduced by 99% since 1988. Afghanistan and Pakistan are the last 2 countries were the Polio virus continues to infect adults and children. Bill & Melinda

Gates Foundation has partnered with Rotary International by matching 3-1 Polio Plus Contributions. Their dedication to this worthy program to eradicate a deadly disease has gained the thanks and admiration of all Rotarians and people around the world.

Below is an article from the Rotarian Magazine:

In North America, those under 40 were born after polio was no longer endemic in the U.S. Among young people the very word "polio" conjures a bygone age when children regularly died of diseases like measles, smallpox, or whooping cough. We know measles is staging a comeback. Tuberculosis is gaining resistance to treatment. Until a disease is really gone, eradicated from the planet, it will

always be looking for ways to come back, for breaches of our defenses. We've come very far in 64 years since the introduction of Jonas

Salk's vaccine and especially in the 40 years since Rotary decided to take on polio. It gets easier to forget why it's critical to eradicate this disease, we don't see polio in our daily lives. Generations have never experienced its terrifying power. We let our guard down when we think that polio only happens in faraway places, or that almost is good enough. If we remember what it was like when polio was everywhere and people felt powerless against it, we know if we don't finish the fight, we'll soon be back where we started.
