

Work with a dog trainer. Dog trainers might be able to work with dogs so they only urinate in certain areas of the yard, greatly reducing the damage they can cause to a lawn. Trainers also might help curb digging and clawing behaviors that can damage lawns as well as gardens.

Consider hardscaping. Hardscaping might be most effective for pet owners with small properties. Hardscaping does not include grass and can add visual appeal to a property while saving pet owners the headaches of dealing with dog-related lawn damage. Dogs need time outdoors, and homeowners can take various steps to protect their lawns from dog-related damage.
