## Welcome back to school students and teachers

Be prepared for the next power outage and don't be in the dark for hours or days on end. When the power goes out your Generac Automatic Home Standby Generator will come on within 30 seconds and restore power to your home or business and you can continue life as normal. Call PSU today for a free site visit and

learn how owning a Generac Automatic Home Standby Generator can keep you out of the dark. We also now offer financing. Already have a home standby generator? Join the many satisfied customers that allow PSU to maintain their generator. We look forward to hearing from you.
