BE MOSQUITO FREE! PREVENTION & PROTECTION

DRAIN

Remove standing water from around your home. It only takes a bottle cap's worth of standing water to cause a mosquito problem.

Common culprits that should be monitored regularly for standing water include

- clogged rain gutters,
- corrugated drain pipes,
- bird baths,
- pet bowls,
- trash & recycling bins,
- plant pots, and
- children's toys.

DRESS

When practical, wear long pants and long sleeves. Loose-fitting, light-colored clothing is best.

Studies have shown that some mosquitoes are more attracted to dark clothing and can most readily bite through tight-fitting, loose-weave clothing.

DEFEND

Use repellent! The EPA has registered repellents that have been reviewed and approved to pose minimal risk when used properly:

- DEET (N, N-diethyl-m-toluamide)
- Picaridin (KBR 3023)
- Oil of lemon eucalyptus (p-methan 3.8-diol, or PMD)

MOSQUITO CONTROL

When performed properly by trained professionals, back yard mosquito treatments can help to reduce the danger and risk posed by disease-carrying mosquitoes.

The Mosquito Authority's REPEL+PLUS Mosquito Treatment will break the mosquito lifecycle and all but eliminate mosquitoes from your yard - and your life - all summer long.
