

FROM THE DESK OF
Phil Fisher

Dear Friends,

There are a number of candidates for Governor of our great state to choose from this election. All have a long record of service to the citizens Mississippi and are deserving of your consideration. Understanding that, let me tell you why I am supporting Bill Waller, Jr., for Governor.

I have known Bill and his family almost all of my life—at Mississippi State and in the Mississippi National Guard. I know Bill as a hardworking, honest, and reliable Christian man whom I absolutely trust to “do the right thing” while leading our state.

While all candidates will state their case for election over the next few months, I am more interested in long term integrity and willingness to take on the hard issues. Those issues are roads and bridges, education, health care and workforce development for current and future economic sustainability.

He is the only candidate for Governor who has served at the top of one of the three branches of our government. With over 20 years on the Mississippi Supreme Court (10 as the Chief Justice), Bill has made the hard decisions, popular or not, because he understood that the highest level of juridical office requires a decisive individual (sounds like the life of a Mayor). With nowhere to hide, the “judicial buck” stopped with him.

Mississippi deserves better than the same tired ideas that keep us last in the nation. Instead of promoting current office holders to a higher elected office, I believe it is time to elect someone with refreshing insight and new ideas—someone with the integrity to face the hard issues and challenge the legislature with far reaching ideas.

I truly believe Bill is that person. Please join me in giving our state a new start by supporting Bill Waller Jr.

Phil Fisher
Mayor
City of Clinton
