AFFIDAVIT

In Re the Petition of Robert L. Comeau and Joan K. Comeau as Trustees of the Comeau Revocable Trust dated April 29, 2014.

Robert L. Comeau, states as follows: "I declare under penalty of perjury that everything I state in this document is true and correct." Myself and my wife, Joan K. Comeau, did cause land located in Government Lot 3 and Government Lot 4 of Section 23, Township 141 North, Range 35 West, Hubbard County, Minnesota to be platted. Said plat is known as Comeau Park North First Addition. A copy of said plat is attached hereto as Exhibit A. We did obtain from the County of Hubbard Conditional Use Permit Number 5-CU-07 which allowed a controlled access lot to service twelve lots and have twelve watercraft slips. Further we did obtain from the County of Hubbard a variance on October 15, 2007 which allowed for a parking area on a proposed controlled access lot. We now have decided we do not need or require either the Conditional Use Permit nor the variance and Hubbard County as therefore, based on our application vacated both the Conditional Use Permit and Variance. See the resolutions attached hereto as Exhibit Band Exhibit C.

We therefore are requesting the plat be amended and to known as DUE NORTH ESTATES and that the terms and conditions as stated on the attached Exhibit D be part of the new plat.

Ask a Trooper

Sgt. Neil Dickenson

Question: I moved to Minnesota from Arizona about a year ago and I have a car that has tinted windows. What is the window tint law in Minnesota?
Answer: Even if your previous state allowed tinted windows, you will now need to comply with Minnesota law:

- No vehicle can have ANY tint to the front windshield.
- Passenger cars are limited to 50% on all side and rear windows.
- Pickups, vans, and SUV's are limited to 50% on the front side windows.
- Pickups, vans, and SUV's are NOT limited on the rear side and rear windows. (Can be less than 50% behind the front seat).
- Squad cars, limousines, and vehicles used to transport human remains by a funeral establishment are not limited on the side and rear windows.
- No person shall sell, offer for sale, or use any motor vehicle with windows or wind-

shields that have window tint on them.
State Patrol has two types of tint meters. The first type of meter slides over the window to give the tint percentage. The second is a two piece meter, and is used for rear window or windows that will not roll down.
Window tint obstructs your vision at night and during poor weather conditions. It is also a safety concern for law enforcement at night. Illegally tinted windows make it nearly impossible to see in the vehicle while conducting a traffic stop.
If you need to have window tint removed, you can check with a body or detailing shop or you can do it yourself. Look on the internet for advice and suggestions.
If you have any questions concerning traffic related laws or issues in Minnesota send your questions to Sgt. Neil Dickenson - Minnesota State Patrol at 1131 Mesaba Ave., Duluth, MN 55811 or at neil.dickenson@state.mn.us.
