

Dr. Elizabeth Lund, MD voted Weakley County's Best Doctor

BMG Women's Health Center offers a variety of healthcare options for both women and men. The staff specializes in obstetrics and gynecology with board certified physician and this year's Reader's Choice Best Doctor Dr. Elizabeth Lund, who leads the team at BMG Women's Health Center and has been practicing medicine in Martin for more than 20 years.

Dr. Lund grew up in Martin and knew from a young age that she wanted to come back to Weakley County to practice medicine. She has brought hundreds of babies into the world in Northwest Tennessee and helped ensure their healthy development while taking care of the expectant mothers. But

her patient list doesn't just include expectant mothers and their newborn babies.

Dr. Lund handles all ranges of gynecological needs for her patients.

The extended staff includes another physician, two family nurse practitioners, and two certified nurse midwives – all of who see a wide range of healthcare issues in the adolescent population

to the more seasoned patient.

"We try to take the time to make sure each woman feels like their healthcare needs are addressed at each appointment.

Whether it's bringing your new baby into your family or your own health needs, we strive to apply our team's medical knowledge to make sure you achieve the best well-being possible."

"At BMG Women's Health Center, we have a wonderful office staff, nurses, lab technicians, mid-level providers, and physicians, all working together as a TEAM to work for our patients to bring the

best knowledge and care we would want for our own families. We want to thank those who voted for Dr. Elizabeth Lund and for choosing her as your women's healthcare provider. We love serving this community, and we hope to continue to provide quality healthcare in Weakley County."

In 2017, Surgical Associates of Martin merged with Baptist Medical Group to become BMG Women's Health Center of Martin. It is located at 300 W. Peach St., in Martin.

The clinic is open Monday through Friday from 8 a.m. until 5 p.m.

For more information about this award-winning medical facility, call (731)587-2525.

**Voted Weakley County's
Best Doctor,
Dr. Elizabeth Lund, MD
