

2019 Spring Home and Garden Guide

Arthur... Your Authentic Green Destination

Each year thousands of visitors come to the Arthur area for a variety of reasons. In the springtime one of those reasons is to visit the many local greenhouses who will help you put the green (and almost every other color imaginable) in your garden, in your yard, pots and planters.

Local greenhouses have every sort of herb, vegetable and flower you can imagine along with the accessories to work with them, show them off and help grow them. The expertise and advice comes along with the flowers and plants free of charge! Even if you want to start with just the seeds,

our Arthur area greenhouses can help you out.

Countryside Greenhouse – One of our oldest greenhouses in a new location! Nearly four decades ago Countryside Greenhouse opened. It was run by the Otto sisters Mary and Susanna and to many it simply became known as

“The Sisters”.

The pair “retired” and sold the business known for beautiful flowers, hanging baskets, vegetable plants and good advice to Jerry Herschberger. He moved the business a mile south down road 200 E (the same road as Beachy’s Bulk Foods) and a half mile east.

The ride on the road back to the new location is worth the drive alone!

They continue to offer the same quality products of vegetable plants and flowers as in the past. They have some new varieties of vegetables and some new flower colors this year that customers are bound to love.

Graber’s Greenhouse –

Located on Jonathan Creek Road between Arthur and Sullivan (just past the railroad tracks look for the signs that say WHOA!) Graber’s has been an area favorite for over fifteen years.

A few years ago, the business did some remodeling (Continued to Page 2)
