Senior Spotlight

Waffle House hands down! 3. Which is better, a big 3 pointer in basketball, or a monster face busting spike in Volleyball? Why?

In my books nothing is better than a monster hit in volleyball. There are so many factors that go into setting up a volleyball for a hitter, and for that hitter to be able to place the ball where they want it. It's a very good feeling not just for the hitter, but for the passer and setters as well. Volleyball is so team oriented, and that's why it's so rewarding and humbling at the same time.
