

Jessica Ladabouche

Jessica Ladabouche graduated from Midwest City High School in 2010. She started a Rose State College the following fall and has continued to accomplish one goal after another. Shortly after giving birth to her second child, she was accepted into the RN program at OCCC. During that two years, she experienced 100% breast feeding, the infections that sometimes come a long with breast feeding, with high fevers, and still maintaining excellent grades. Once she was far enough into the program she started working at Mercy all while being a full time nursing student and a full time mom to her babies. Once she graduated RN school she took the job that she currently has in the NICU at OU Children's. Soon after, she began working on her BSN. Check, she finished that with excellent grades. Her next goal was to enter into a Nurse Practitioner program, which she is currently working towards the end of the first of the two year program.

She works the night shift, meaning that some days she's get off work and head straight to class all day. Somedays she'd head straight to take an exam over anywhere from 6-10 chapters. Her kiddos are in several sports and she manages to be at nearly everything. Her family is proud of the commitment and support that she gets from her husband AJ. He's a Carl Albert grad and works a Tinker Air Force Base. He is such a wonderful dad, husband and son in law. He really makes it look easy, as he holds down the fort of laundry, cooking, and much more. He takes such great care of our Jessica and has since they met in 2009. They reside in Choctaw.

Healthcare professionals thank the Johnson family, of Choctaw, for manufacturing and donating face shields throughout the area.

THANKING ALL OF OUR FRONTLINE RESPONDERS!!
